As I sit in front of my trusty computer, tapping out my latest observations from the electronic gaming world, the CES convention has just ended and the war against Iraq is just two days old. While I had planned to dedicate this space to express some personal opinions that were formed at the Consumer Electronics Show in regards to new product, a very interesting bit of reporting has continued to illuminate the tube.

One after one the allied pilots who have been forced to take the military option in response to Saddam Hussein's plundering of Kuwait have appeared on television trying to describe the sensations of modern air warfare. With all of its high-tech trappings and extensive use of computers for sighting enemy targets, the closest thing any of the top guns interviewed could compare the real-life battle with is -you guessed it- a video game.

It's not hard for me to understand how this could be. From the cockpit video tapes that have played so far, the electronic sightings that today's jet fighters employ look just like something out of an After Burner game. Even though you don't feel the physical strain that our heroes in the gulf experience when they perform incredible aerial acrobatics, the actual look of air-to-air and air-to-ground combat is very much the same.

Could this mean that the skills that are needed to perform well on the video game screen can translate into useful talents in other parts of your life? The argument for video games being a great vehicle for improving hand-eye coordination have been reinforced by our soldiers in the gulf. It's tragically unfortunate that the men and women of our armed services need to be present in this conflict at all. But it's also reassuring to know that any threat to democracy and freedom can be destroyed.

How was the show, you might ask?

Besides the fact that the show was held inside what amounted to be little more than glorified green houses (which always seemed to be either too hot or too cold), the Winter CES in Las Vegas did see the introduction of some new hardware, a behind-the-doors peek at the 16-Bit Nintendo and more softs than you can imagine!

Having sampled what the Super Famicom can do, it was a little disappointing that Nintendo chose not to make a stronger announcement for their high-end console, but not that surprising. At Nintendo's press conference, the powers that be at the big 'N' did little more than promise to sell four billion dollars worth of equipment once again this year, including two million Super NES's in just over three months time. That means Nintendo plans to sell twice as many units as the Genesis in roughly an eighth of the time. Sure it's optimistic, but it also lets Nintendo fill in a 20% decline in sales with a new product line.

This issue is dedicated to the CES show by delivering our bi-annual photo-excursion through the show, spotlighting all the softs that were on display. It's also dedicated to our armed forces: may peace bring them safely home.

RGB FOR GENESIS..

With all the progress being made in improving the resolution of home video games, one thing that seems to have been overlooked is an article on game monitors that are compatible with, and can fully display the full power of these new super systems. I've tried just about everywhere to find a monitor that will work with the RGB analog output on my Genesis - to no avail! Since you claim to be the "last word on video games", can you tell us what monitor will do the job?

**John Gurnee
Appleton, WI**

(ed. We're glad to hear you are turning to us for technical advice. As you stated, an RGB monitor is indeed the best way to squeeze out every bit of graphic data from the new 16 bit systems. You are on the right track but the problem you are having is not with the monitor but rather it is with the cable. Any RGB monitor with an analog (not digital) input will work, but what you will have to do is take the monitor and Genesis to a good electrical engineer or knowledgeable computer technician. He will be able to identify and match up the red, green, blue, sync and ground pins on each. A custom cable will have to be made as there is no universal cable on the market. But be aware that it won't be cheap. The cable and labor will be about \$100 and the monitor can run anywhere from \$400 to \$2000! TurboGrafx users can go

through the same procedure by having the optional Turbo Booster modified. Likewise for the Super Famicom.

For a less expensive alternative you may want to consider a "normal" computer monitor (or one of the new monitor/TVs) with audio/video inputs. Sega has just come out with a ready-made cable which will connect directly to the 'A/V' terminals. That

cable will cost under \$20.

CROSS LICENSING..?

I would like to commend you on your informative and interesting magazine. However, I have some questions concerning the CD-ROM for the Genesis. Are TurboGrafx CD's compatible with it? If not, why? Will there be cross licensing from the Turbo to the Genesis? If there will be, that would be a very awesome option for the gamer as he would only have to buy one system and enjoy the benefits of both. What do you think?

**Steve Tanous
Greenwood, MS**

(ed. Unfortunately the TurboGrafx/PC Engine CD's will not play on the Genesis/Mega Drive (or vice versa). This is for several reasons. First, the hardware specs of the CD-ROM players are different. And second, the program code is designed to work on a specific system. While the CD's look the same that does not mean that they are interchangeable. It's like trying to put a Commodore C-64 floppy disk into an IBM and expecting it to work.

Cross licensing is another thing though. We are beginning to see

Vallis 3 for the Genesis and TurboGrafx!

more games coming out on both the TurboGrafx and Genesis. Even the big 'N' is starting to bend a bit by not requiring its SFX licensees to produce softs only for that system!)

WHERE ARE..?

In issue number 13 there was a preview of two games for the Genesis I want to buy. The first game is Caesar by Micronet and the second is 688 Attack Sub by Electronic Arts. Can you tell me when these games will be released?

**Jason Smith
Keedysville, MD**

(ed. Whew! We could do a whole letters column on just the "Where Are?" letters! You can get many of your answers by thumbing through this special CES issue! The Ambition of Caesar is now called Warrior of Rome and will be coming out as an 8 meg plus battery cart! Bignet will have it out in April. 688 Attack Sub is by Sega and their list shows it coming out in June. Tecmo Bowl 2 is now

Super Bowl and special preview pictures of this fantastic soft are on page 76. Spiderman is coming along nicely and is scheduled for a July release. For Shining Darkness (yes it is 8 meg!) and Arrow Flash you will have to pick up a copy of the newest issue of Mega Play, our all Sega magazine.)

SPEEDY JAPANESE TRANSLATOR WANTED!

Why does it take so long for the Japanese games to come to the U.S. market? For example Dragon Warrior 2 and Final Fantasy were both released in Japan in 1987. Sega is not much better as Phantasy Star 3 was out in Japan early last year and every time I call Sega they keep pushing back the U.S. release date.

**B. Kuran
Edmonton, Alberta**

Coming soon - Phantasy Star 3!

(ed. You're right, it does seem like an eternity but besides language translation, many times the game has to be modified for the U.S. market. Timing is also important as you would have to agree that, for example, bringing out Vermilion and Star 3 at the same time wouldn't be a wise idea. It may be frustrating to have to wait so long but most times the changes are for the better.)

TOO HIGH A SCORE!

In a back issue you asked for ideas how you can improve your mag. I believe that your monthly U.S. National Video Game Team Top Score contest is unfair. In one game the high score is in the millions while the game score rolls over at 999,999. How can this be?

**Santiago DeMars
Eau Claire, WI**

(ed. A good point Santiago! In the game you mentioned the high score

was verified by watching the VCR tape that was included with the entry form. The tape ran through the entire game and included several 'rollovers' of the score. We agree with you that not everybody can tape their game and changes are being made, effective this issue, to the monthly contest rules. Now, there will be a random drawing of all entries with scores that rollover. For the rest of the games listed on the high score pages, rollovers will be allowed, but must be proven with a VCR tape.)

MORE CONTEST PROBLEMS..

Something needs to be said about the way EGM runs contests. I am complaining about your Ninja Spirit contest. You have to have a TurboGrafx 16 and the game before you can enter it. And the Batman contest. I suppose that everyone who entered that one has a Mega Drive. How can you then say 'no purchase necessary'? In the future you should have contests that do not exclude anyone. Everyone likes the chance to win something, even those of us who don't have the system necessary to play the game on.

**Thomas R. Hedlund
Kansas City MO**

(ed. Thanks for the letter Tom. As you can see in this issue our Great \$10,000 game Give Away is right up to your specs. Unfortunately though, not every contest is made for all players. A TurboGrafx CD player would be of little importance to someone not having the base system. If you don't have a Genesis you don't need Batman, and if you don't have a NES you won't want Shadow of the Ninja. We did have one contest for each major system though.)

MORE NEO-GEO!!

You have given an emphatic 'nay' as to the viability of the Neo-Geo. Granted the machine is quite expensive but you may rationalize the expenditure by getting only one true arcade game instead of three mediocre Genesis games. I am a 23

year old English major and only the very best Genesis cart can even half-heartedly hold my interest. I finally dumped that though. I assert that you perhaps have heard of Orange County, Beverly Hills or Palos Verdes. Not all people are created equal and those with the money will buy the system. Your coverage of the this masterpiece sucks as compared to the other mags and maybe your game reviewers do not appreciate the sophistication of the Neo-Geo because they are not sophisticated themselves. I was a devoted reader of EGM and will still peruse it until my subscription runs out. Some advice, pray your target audience remains predominantly young and unsophisticated.

P.S. Martin do you really believe that you can beat Nam for \$5 at the arcade, I've been on level 3 for months now.

**Michael T. Daley
Long Beach CA**

(ed. It is too bad that you are letting your subscription run out as you will then miss out on the only game mag who will be doing Neo-Geo reviews! We were the first to report on that system and we now are the first to give multiplayer reviews! We do not give a 'nay' to the Neo-Geo but neither do we give it all 10's as the ultimate system. Yes it IS the arcade machine but that is not always a benefit. One major drawback, other than price, is the fact that it is too much like an arcade machine. Arcade shooters or action games are set up to eat quarters. You die, put in another two bits, and then continue from where you died. When done on the home Neo-Geo, this means infinite continues. And not having to worry about dying does take away from the challenge. On the positive side, we agree with you that their sports games are among the best ever, as are the game graphics and sound. And just as there is a market for a \$200,000 Lamborghini there is one for the Neo Geo. Now that the system has a larger base of users, we will start to cover this elite product and its software in our previews, fact files and multiperson reviews.)

Nintendo - Acclaim The Simpsons

Type: Action Release: Feb
Levels: 5 Difficulty: Avg.

No way man!

Yes, it had to happen! Bart Simpson and the rest of his post-nuclear family have arrived on the NES for an adventure as strange and funny as the show itself. You control Bart as he tries to convince the other patrons of his family that the townspeople of Springfield are being abducted by space creatures. Only by spraying all the items within a level does he win their support.

The Simpsons has some cute catches and definitely the name to score a million, but all of the extra features that are supposed to add to the game do, instead, detract and slow the play down. It does have originality within the tried theme to make Simpsons fans happy.

The Simpsons combine a good mix of action with adventure. There are quite a few not so obvious objects hidden in the game and will take some thought to flush them out. It plays well and with the character recognition and humor built in, it will be a hit.

Aye Carumba! While the game won't get any awards for graphics, the sound is pretty good featuring digitized phrases like "Eat my shorts" and "Cool man" from Bart himself. Lots of different things to do in order to accomplish the goal of each level. Makes you laugh and use your head.

This long awaited game left a little to be desired. Although the challenge is there, lack of variety tends to hurt this otherwise funny concept. The most amusing part of the Simpsons is calling Moe's Tavern and reading the conversation. Still, it is a good adventure game...for kids.

Nintendo - Irem Metal Storm

Type: Action Release: Mar.
Levels: 8 Difficulty: Avg.

Metal Storm expands the scope of the normal side-scrolling action-shooter to include a super-hero with anti-grav abilities and plenty of fire-power!

The standard move and shoot game that is populated with challenging creatures and powerful Bosses includes a new feature that lets you flip between the top and bottom of the screen depending on where the action is!

Metal Storm is the perfect example of how to take an existing theme and produce it correctly from beginning to end. You get amazing graphics, decent sounds and enough pulse-pounding thrills to keep interest well into the action. It's not based on an arcade title, but it is solid.

Spectacular graphics and some very innovative features make this one of the best NES shooters to come around in a long time. While not as difficult as some die-hard players would like, the game is still easy enough for the average player. The reverse gravity is a big plus.

A very cool concept in shooters. If things don't look good then change gravity and flip the situation in a totally different way. Graphics are too pastel, but even parallax scrolling makes up for it. The bosses are easy and there aren't enough power-ups otherwise a great "Jawin" game.

At last! A new idea for a shooter! Even though Striker was the first game to truly introduce the concept of gravity-reversal, Irem took that very thought and creates a very comprehensive game around it! Marvelous graphics and playability enhance this terrific shooter.

Zombie Hoards Attack U.S.

▪ Strange samurai head heading to New York City.

By I. C. GOOLS, Times Staff Writer

NEW YORK--What appeared to be a harmless meteorite crashing in the Nevada desert has turned out to be Darc Seed, an evil alien creature with horrible powers. By shooting strange magnetic rays, Darc Seed has turned the helpless nation into zombie slaves and has brought the Statue of Liberty to life to do his dirty work.

There Goes the Neighborhood

Mrs. Emma Nuttz of Brooklyn had this to say about the situation. "Just when it seemed safe for decent folks to walk the streets again along comes this Darc Seed with his gang of Zombie hooligans and there goes the neighborhood. And if that wasn't bad enough, it seems the only way to defeat this ruffian is by totally destroying every in sight. Now there really goes the neighborhood!"

Mr. I.M. Sickentired of the Bronx added, "As if we didn't have enough stinkin' garbage on the streets already. Between the freakin' wino's and the blasted beggars and all the other louses already fouling up this miserable town...and now these sleazeball

zombies!! It's enough to make me want to move to freakin' Los Angeles with all the other fruits and nuts!!!"

Mayor Heminhaw immediately called an emergency press conference where he read the following prepared statement. "I um, er, ahem, ah, I am doing everything, ah, er, er, humanly possible to see to it that ah, this situation er, um, this terrible situation ah, comes to a ah, ahem, a swift and , er, um, um, a swift and satisfactory close. I er, er, um, have no further er, er, comment at this time. Thank you".

ZOMBIE NATION: Ground Shaking NEST™ Action

Zombie Nation is a ground shaking action/shooting game for the Nintendo Entertainment System®. The object of the game is to wreak total destruction on everything you see by firing powerful projectiles (it's a dark and dirty job, but somebody's got to do it). Meanwhile, you need to rescue as many zombie hostages as you can in order to gain enough strength for the ultimate showdown with Darc Seed (he's toast!).

ZOMBIE NATION: Devastating Graphics and Pounding Sound Effects

Zombie Nation's graphics are so devastatingly realistic you'll almost be tempted not to demolish them (yeah right!). And the relentlessly pounding sound effects will make you feel like you're right in the middle of the action hammering away at skyscrapers, mountains, and everything else that crosses your path... So don't just stand there like a Zombie, get your copy now!

Nintendo - NTVC Isolated Warrior

Type: Action Release: Mar.
Levels: 7 Difficulty: Avg.

Take the battle into your own hands as the Isolated Warrior! In this three-quarter perspective scrolling shoot-em-up, you confront all types of enemy opponents on a battlefield of the future. Walk these mean streets with your pulse rifle, collecting power-up incentives along the way to upgrade your health and weapon status.

Isolated Warrior takes some pretty standard stuff and does manage to make a game out of it. In the role of the title character, the dangers the Warrior encounters are straightforward, but the execution and depiction of the game play is what really elevates the game among similar carts.

There are some very good concepts in this game. I like the diagonal paths and some of theopping motions that occur in the later sounds are decent. It plays well and it's pretty easy to keep powered up. There's a good variety of action but the flicker does hamper the game play.

Isolated Warrior has a few original concepts. Good graphics and a variety of power-ups keep the game interesting. If you keep your wea-pon at full power the game is easily finished though. Cool bosses and background effects. Too much slow down and flicker in intense areas.

Not bad, but not too original either. The only different idea in Isolated Warrior is the 3-D scrolling rather than horizontal or vertical scrolling. The music is good, and the graphics aren't too shabby until many enemies enter the screen-FLICKER!) Just another shooter.

Nintendo - CSG Imagesoft Dragon's Lair

Type: Adv. Release: Now
Levels: 7 Difficulty: Avg.

Dirk the Daring, that star of the video game classic Dragon's Lair which ushered in the laser-disc game, has finally made his way onto the Nintendo, sans the beautifully animated cel animation. The goals are similar, however, as you guide Dirk through various encounters by timing the interactive pushes on the pad and buttons. Get Dirk through one battle and another awaits...until you reach that dragon...

This Dragon's Lair takes the concept from the laser-disc game and mixes in some highly detailed graphics. The results don't have the impact on the NES, and the game really breaks down to little more than a memorization of the patterns and learning which buttons to press. Is this fun?

There are two types of hard games. Those that are challenging and those that are so difficult to make them frustrating. This one is a good example of the frustrating type! Every move has to be timed and executed perfectly. And there's a near impossibility.

This is an insult to one of the most spectacular laser disc games ever. Granted the game has nice graphics and sound, but there is absolutely no game play to it. Dirk is animated well, but it is so slow that you don't have a chance in certain parts. Very frustrating and not fun at all.

YEECH!!! The only thing saving Dragon's Lair from "3-dom" is the decent graphics. Sporting absolutely no player control, challenge, or outright interest. Dragon's Lair should be avoided unless you like games based on graphics alone. In that respect, it's a six and a half.

Master System - Sega Mickey Mouse

Type: Adv. Release: Feb.
Levels: 7 Difficulty: Easy

Mickey sets out to conquer another world...the Sega 8-Bit world. Much of the theme from this game has been lifted from the Genesis version as Mickey tries to make his way through the gauntlet of dangers and obstacles that await in each round. Using special attack techniques can get Mickey through the hard times, but only a skillful hand will get our hero past all the challenges.

Every once in a while Sega manages to deliver the goods...and really get us to thinking how amazing the Master System really is. Mickey looks decent for 8-bit and more importantly this title has a good balance of game play to make the whole thing worthwhile. Congratulations SMS owners!

Mickey scores another hit for Sega! This is a good example of a game that doesn't have to have tons of memory or a 16 bit processor to be good. Mickey animates well, the quest is challenging and, best of all it is fun to play. The SMS can use more carts like this.

8-Bit Mickey is every bit as good as the Genesis version. Colorful graphics and good music with excellent game play. Different levels than the 16-bit and a variety of power-ups make this a SMS cart you shouldn't miss. This should hold those waiting for Fantasia.

EXCELLENT!! And who thought the SMS was dead?!? Anyone with any decency should get this game! The graphics are marvelous. The music is stupendous. The control is amazing. This game is almost every bit as good as the Genesis version! Nuff said!!

KABUKI QUANTUM FIGHTER

Genesis - Renovation Gaiarses

Type: Action Release: Feb.
Levels: 7 Difficulty: Hard

The Sega gets yet another multi-level blast-'em-up pitting an armored space fighter up against a legion of alien attackers. Gaiarses offers this war in a much different fashion than most, however, with an enormous array of weapon enhancements, full-screen Boss creatures and a battle to save the universe that is implemented in a way all its own! With 8-Meg of power, Gaiarses gets a boost as well!

With 8-Meg of memory, Gaiarses could be guilty of overkill, and with the exception of enemy agents you're deployed to destroy, the game is surprisingly well-balanced. Gaiarses is one of those few titles that puts a new face on an old genre, but succeeds in the process!

Games just don't get any better than this. The graphics, game play, challenge level, sound, everything is about the best ever in a Genesis cart. The bosses have to be seen to be believed, if you can get to them! Not easy but not frustrating. Spectacular!

Gaiarses is phenomenal! 8 Meg of incredible graphics put it in a league all its own. If you thought the lava in TF3 was intense, wait till you see the hyperspace scenes! 15 awesome power-ups and humongous end bosses that really mean business! Good music, but not as good as TF3.

Thunderforce 3 move over!! Once I started playing this game, I couldn't put it down! Few words can describe this shooter, innovative powerups. Rockin' tunes. Crisp graphics. The best end bosses ever!! If there ever was a game to follow, and nearly surpass, TF3, this is it!

Genesis - Seismic Hellfire

Type: Action Release: Now
Levels: 6 Difficulty: Hard

Adapted from a little-seen Toaplan arcade blaster, Hellfire introduces you to a galaxy filled with laser-splitting opponents bent on destruction. Through space stations and over alien worlds, Hellfire provides plenty of targets, both standard and Bosses, for your Hellfire gunship and its myriad of weapons systems. Yep, there's power-ups to increase weapon effectiveness and to increase your scores dramatically.

Hellfire is a quite enjoyable change of pace with enough originality (with the selectable weapons) to make it interesting. The graphics are fine and action are good, with the only shortcoming coming from the confusion that can ensue when changing weapons. Good fun!

In many respects Hellfire is as good as Gaiarses but this soft is even harder. Too hard for my tastes but there are players who thrive on that. Great scrolling, plenty of fast action and good audio. Lose your power and you might as well restart the game - too hard.

Another great shooter to challenge your trigger finger. Hellfire is definitely the toughest shooter I've played on Genesis. Basically the idea is to keep your weapons at full power or you are dead meat. Excellent graphics and sounds and 6 extremely long and difficult levels.

Cool weapons, fast game play, and long levels. What more could a serious shooter fan ask for? More. Hellfire lacks decent end bosses and powerups. There is not much variety in this long game. Multiple endings do enhance it though. Hellfire is only an above average game.

Genesis - Sega Dick Tracy

Type: Action Release: Now
Levels: 6 Difficulty: Avg.

Sega puts you in the shoes of the comic book detective as he fights his way through the underworld to locate the big name Bosses of big time crime. Scrolling action comprises the bulk of this title, with the goons split between two streets for both side-to-side end straight-on gun fights. In between levels you can refine your skills in the shooting gallery bonus rooms.

Dick Tracy didn't really live up to my expectations. The game is repetitive, with the side-to-side shooting become pretty boring from the start. Being able to interact with everything is cool, but that gets old after a few plays as well. Bonus rooms don't save this big name game.

For a while Dick Tracy is fun to play but that fun turns to more of the same thing way too soon. It plays well but there should have been more variety. Decent graphics and great machine gun sounds are offset by a shallow game covered up by a big name movie.

A bit more colorful than the movie and a lot more fun. What the Genesis needs is more action games and Tracy delivers. It plays a lot like E-SWAT, but the similarities end when you pull out your Tommygun and mow down the thugs across the street. Slightly repetitive, but good.

Dick Tracy is welcome surprise to the Genesis. Watching the animation sequences and bonus rounds makes me feel like I'm right there in Tracy's shoes. The only thing Dick Tracy lacks is variety to compliment the excellent graphics and great sounds. Nice try, gang!

Turbo Grafx 16 - NEC
Super Star Soldier

Type: Action Release: Mar.
Levels: 8 Difficulty: Avg.

NEC has blasted away with a new vertical scrolling mission; an evil armada of alien conquerors is approaching Earth, and only one thing stands in their way: the Super Star Soldier! Fearlessly take on huge end bosses with a multitude of super powered weapons. Bosses are not the only threat, however, as the entire army of attackers rain down on Earth; their intent: total destruction of mankind!

Super Star Soldier shares a lot in common with Blazing Lasers, which is the only reason that a comparison is made. Both have a good assortment of opponents, but in terms of sheer intensity, Lasers wins. If you want another variation on the theme, however, this will satisfy.

Another great shooter that has very fast action, lots of on-screen enemy and enough power-ups to give you all the weapons you need. It's hard and that is a welcome addition as most shooters have the difficulty set too easy. A well designed game with great graphics and sound.

If you ask me it's the sequel to Blazing Lasers. A very conventional, but good shooter for Turbo. While the game is harder than BL, it lacks the variety of weapons and power-ups that made BL so good. Great graphics and exceptional music blended with great game play.

Super Star Soldier is a good game, but not a great game. The power ups are not original enough to capture my attention or blow me away. The theme is nothing new. Good graphics and playability do help and the game is challenging and difficult.

Turbo Grafx 16 - NEC
Valis 2

Type: Action Release: Nov
Levels: NA Difficulty: Easy

After the destruction of the Rogueless King, Yuko has returned to the World of Reality. Soon, however, Yuko learns that the evil Magus has arrived to conquer Vikanti and its people. The Sword of Valis holds the key to defeating Magus and restoring freedom. Boasting high-tech sounds and graphics, Valis 2 is pleasing to the ear and eye. NEC proudly adds this game to its CD collection!

Valis 2, like some of the other CD-ROM entries, offers up a standard action game, throws in some spicy sounds and intermissions, and calls it a game. You get plenty to shoot and interact with, but Valis 2 is not revolutionary in terms of play concept despite some high points.

The power of the Turbo CD-ROM comes through again. Spectacular true CD music and long intermissions help make the game as good as it is. I would believe that the game could be longer as a good player could finish it rather quickly but 6 rounds is average and not to be faulted.

Valis 2 doesn't break new ground in action games, but the added depth of intermissions and a true CD quality soundtrack are definitely noticeable. Only 6 levels in a CD-ROM game is a bit disappointing. Great graphics and superb musical score highlight this short but sweet disc.

Undoubtedly sporting some of the best intermission screens and music since Y's (but not better), Valis 2 has one major fault: it's far too easy! The story is quite entertaining and fresh. Since ladies are usually not the stars in video games, this game is original already. Excellent.

Gameboy - Nintendo
F-1 Race

Type: Sport Release: Mar.
Levels: N/A Difficulty: Easy

One of the first of its kind, F-1 Race for the Nintendo Gameboy allows up to four players to join in the fun simultaneously and race against each other. Of course, if you don't have four friends with enough guts to challenge you, take on the computer and go for the gold. Quick reflexes and driving skills are a must here! Keep constant tabs on your driving status and position and leave the opposition in the dust!

This game resembles go-kart racing more than F-1 racing. The graphics and action are both flat, with sound effects that aren't much better. As a one player race, it just doesn't click, but with four people going head-to-head, it picks up a little speed. More backfire than bang here.

This is the first of the more than two player games and it can be enjoyable when all 4 are playing. It isn't a spectacular car if you are playing alone as it can get rather boring. Chase HD is a much better game and you ought to think twice on this one.

Maybe driving games weren't meant for Gameboy. The game itself is basic in concept and not overly exciting, but the screen blurs too much and causes eye strain. The 4-player option is excellent, you know 4 people who have the game. If you have a Wildboy, great, if not then pass.

Well, for a Gameboy game, F-1 Racing isn't bad. The control needs a little work, and the lack of response cripples the racing game. After awhile the game becomes too repetitive as well. While a good effort, this driving game falls short. Only for driving fanatics.

Enjoy

Gameboy - CSG Imagesoft Dragon's Lair

Type: Action Release: Mar.
Levels: N/A Difficulty: Avg.

The all-powerful Lifastone has been shattered into 194 pieces. Only Dirk the Daring can possibly find all of the pieces and reform the Lifastone to rescue the princess! Sporting highly detailed backgrounds, Dragon's Lair for the Nintendo Gameboy hand-held system tests your jumping skills and ingenuity to the limit. Some pieces are placed precariously above hazards, so make your jumps carefully!

Dragon's Lair on the GameBoy is slightly more playable than the NES version, but it **still doesn't** have the right mix of **great graphics** and solid action. The quest becomes repetitive almost immediately and even though there are some nice sights, the game needs more punch.

I actually liked playing the GameBoy version better than the NES cart. At least I didn't get frustrated. There is a lot of jumping to do and timing is critical but not as critical as the NES cart. It looks good and plays as one would expect from the GameBoy.

Jump around and collect little square objects called lifestones. Does this sound like Dragon's Lair to you? Nice graphics won't help this one in my book. Overly repetitive in concept and in game play. I guess I'll have to wait for this game to come out on the 'other' system.

Sadly, graphics are the only thing that save this game. The backgrounds are spectacular and game play is good, but the concept is questionable. This game would fare better under a different name, it just isn't Dragon's Lair! Too much repetition doesn't help either.

Neo Geo - SNK Magician Lord

Type: Adv. Release: Now
Levels: 8 Difficulty: Avg.

Magician Lord for the Neo Geo truly defines arcade action with intense game play, incredible techniques, awesome power-ups, and an excellent variety of enemy characters. The highly detailed scrolling backgrounds leave nothing to desired, either. Defeat the evil demon hoards and perfect your magical abilities to prepare for the conflicts with the maga-powerful round bosses!

Definitely a winner! Magician Lord has that perfect blend of advanced graphics and strong play, evenly spread out across a fantastic series of worlds. Shape-shifting enhancements broaden the scope of play even further. Great Bosses and lots of challenge!

There isn't much a person can want in a game that isn't here. It plays like an arcade game, it has the graphics and sound like an arcade game, and it IS an arcade game. If you have a deep wallet, why not get an arcade game. And this is the one that easily fits in a home.

Definitely the best Neo Geo game there is or ever will be. All Neo Geo games have great graphics and sound, but only Magician Lord has a steady progression in game play and lots of technique to master. Totally tough and totally awesome! Superb voice and addicting arcade action.

With the name Neo Geo comes the burden of living up to its promises. Magician Lord does just that. Few games could hope to match the incredible graphics or sound that the Neo Geo can lose out. Magician Lord is an excellent game that utilizes the system's capabilities well.

Neo Geo - SNK Ninja Combat

Type: Action Release: Now.
Levels: 7 Difficulty: Easy

Also for the Neo Geo, Ninja Combat adds high definition graphics and high tech music to the Ninja Gaiden theme. Go it alone or with a friend to wipe out the enemy forces from within. Choose from different ninja warriors, each with his or her own special fighting techniques. If your cunning, agility, and razor-sharp sword aren't enough to overcome the evil armies, try using the awesome magic at your disposal!

Ninja Combat does deliver the awesome graphics and sound you'd expect from the Neo Geo, along with a game that provides multiple personalities that each possess different attacking styles. With unlimited continues, however, you can reach the end of the game in no time.

I'm sorry. But somewhere price has to play a part in buying a game. This game is just too expensive for the few hours that it takes to beat it. The audio is great, as are some of the action scenes, but when you can just continue, and continue, and continue where is the fun?

Ninja Combat has two major flaws: unlimited continues and repetitive game play. I counted the number of continues it took me to finish the game the first time I played it and it was about 30. If the unlimited continua feature could be eliminated, this could have been a good game.

Unfortunately, Ninja Combat fails where Magician's Lord excels...fun! The game play and action quickly become too repetitive, not to mention easy! Not too many enemies can withstand your knower. Looks and sounds great but there should be more.

Making an Alliance

Battlefield

Misplaced loyalties in the feudal era of Japan often proved fatal. The mighty Japanese hero Oda Nobunaga sought an end to generations of bloody conflict between the warring states of his country. Tragically, his dream of unifying Japan ended when he was betrayed and murdered by his own general. It's your turn now to become a 16th century warlord and fulfill Nobunaga's ambition!

Command over 400 distinct Samurai characters - each with separate personalities and goals. A Samurai will pledge his sword and honor to your cause, but can he be trusted?

Enhanced battle scenarios include Siege warfare, where you must storm the castle gates, swim the moat or scale the castle walls. In Field warfare, the tactics are Charge, Ambush and Surprise. You can even catch the enemy off guard by a night attack!

If your character falls in battle, the war continues with your chosen successor. With strikingly detailed graphics, this simulation of Japan's Civil War Era is more realistic than ever before!

- Two scenarios, five levels of difficulty.
- 1 to 4 players
- 38 unique battlemaps and castles.
- Interact with over 400 Samurai characters.
- New HEX battle features Night and Siege warfare.
- Not copy protected.
- Full color map/poster.

GAMING GOSSIP

Super Famicom To Get New Name in the U.S.?...Atari Panther Update...Best Games of the CES...
Atari Games' Future Coin-Op Hit...Aliens vs. Predator Take War to Japan...Mega Drive Rumors...

...Well, we all went (even though the rest of the group didn't have to suffer through the pain of wearing a stupid disguise to conceal his true identity), and like the last time we learned very little from the well-orchestrated Nintendo propaganda awards at the CES. Besides moping about the fact they came up a little short of their four billion dollar goal, Nintendo did finally acknowledge publicly that they had a 16-Bit machine and that it was on its way to America. While the super white shirts at the head of the company did know that the machine would sell two million units between September and the end of the year, and account for total sales in the 700 million dollar area, they had absolutely no idea what it would be called, what it would cost or what would be packed in with the base unit - I'd have to say with planning like that they are WELL on their way to a 700 million dollar quarter...In an afterthought of that meeting, didn't anybody notice that Nintendo cleverly disguised the fact that they are projecting a 20% drop in 8-Bit NES sales?...

...In a bit of related Nintendo 16-Bit news, the Q-Mann has uncovered what could be the super secret name of the American Super Famicom to come! While it has been lavishly referred to as the NES-SFX within the company, a source close to the project indicated that the street name would be Super NES! Doesn't it make you tingle all over?...As far as the competition is concerned, the most noise is being made from the one company that has yet to find 16-Bit shells to load into its gaming rifle. Atari Corporation appears to be making definite moves towards the completion of a Panther 16-Banger for display at the Summer CES. Mums the word at Atari, however, so this rumor wasn't even acknowledged, let alone denied...

...Other hot stuff from the CES includes my projection that Sonic the Hedgehog will become the biggest-selling Genesis cart to date! This game has got awesome graphics, sound and game play that is good enough to take on Mario - including those of the 16-Bit variety. The proto shown at the show wasn't even completed, and still drew crowds and accolades from game players in the know...Could it be? I've just received a rumor from an ultra-secret source with the Sega organization that planning is already being considered for a Sonic 2 game! I can't wait guys, put him in a land, give us a world, heck - give him an Italian sidekick, but get Sonic to us fast!...

...To put in the file under "I TOLD YOU SO", a major reorganization recently took place at troubled software publisher/developer Activision which left the head honcho in a lower position and a new board of directors in charge. Just don't try to apply your skills at food marketing and expect to stuff Rad Gravity down our throats!...In another piece of Activision news, don't hold your breath for their much heralded Aliens vs. Predator video. The company has evidently sold off the rights to the game to a Japanese interest for a lump-sum of cash to offset other deficits...I'm getting confused guys, is it Lane or Lance Rice you throw at a wedding?...

...We can let the cat (and the phased plasma rifle in the 40-watt range) out of the bag - Terminator 2, Judgement Day will appear on video screens this fall from Acclaim. Based on the sequel to James Cameron's blockbuster about a robotic Arnie on the loose, Judgement Day promises lots of action, plenty of explosions and...a kinder, gentler Terminator? Get real...Okay, okay, okay - Can you believe this one? A major gaming publication that thinks that a classic arcade hit like Pengo came from Atari and not Sega/Gremlin! Pulleeeeeeeeeeeeeee!...One of the coolest themes I ran into at the show was Attack Iraq from some company taking their first bow. The game play was cheesy, but the intermissions featuring an Iraqi invasion of Kuwait and Saddam Hussein's broken-English taunts were great...A totally unconfirmed report from our man in Japan says that Sega is considering the discontinuation of 16-Bit hardware sales (Mega Drives to you and me) in the land of the rising sun. Although the rumor has it that Sega factories are exporting more and more to foreign markets like the U.S. and now Europe, I don't buy it...Look for 1991 to usher in some mega-hit arcade titles that don't go overboard on glitz and instead stick to the game play that made classics such as Centipede and Defender so much fun to play! Atari Games has one such entry called Ramparts in which you and up to two others try to assemble castles and collect territory while blowing up everyone else!...Until next time, here's to our military, the only force in the world that doesn't know the meaning of "Game Over"...

THE THIRD TIMES A CHARM!

One year after defeating the Shadow Warriors and their master, Marion has been kidnapped again! Brett, the best student of the Double Dragon Dojo, witnesses the crime, but he didn't last long enough to warn Billy and Jimmy of the dangers ahead. A wandering gypsy, Hiruko, tells them of the three Sacred Stones. To get Marion back, the brothers must find the stones!

Luckily, Billy and Jimmy have learned some new moves, but these new goons are stronger, faster, and more skilled than the former Shadow Warriors. It will take all of their skills, techniques, and agility to overpower this threat. Also, they must pick up allies to help them in their quest across the globe. The Double Dragons are Marion's only hope!

"Here's one game
that really smokes"

When Jamie says Gaiares really smokes, we believe him. That's because Jamie's been a professional video game tester since he was twelve. And when we introduced Jamie to the eight meg power and 3 way scrolling graphics of Gaiares, he was blown away.

Why? Because Gaiares is the first of its kind to offer universal action, outrageous sound, plus a side kick probe that terrorizes enemy ships by stealing their fire power, then returns so you can blow them out of oblivion.

So before you buy the next game for your Sega system, see what the pro's go for, then go for Gaiares.

Mega Drive Software comes on strong in 1991!

BLUE'S ALMANAC Sage's Creation/Genesis

With very few quest/adventure games out for the Genesis, Sage's Creation has a new soft coming out that has all the potential to be one of the best ever! While what we saw was quite preliminary, it did have excellent battle scenes, a good story line which unfolded as the quest progresses and a good blend of strategy and action. Definitely one worth looking for!

Side view fight scenes with very realistic battle sequences.

STAR CRUISER NCS of Japan/Mega Drive

Probably the best 3-D solid filled polygon game to come out for the Mega Drive, this shooter, set in a first person perspective, combines intense action with constant dialogue and cutbacks to your base ship. Unfortunately, since this has a large amount of Japanese text it is highly unlikely that any U.S. company will pick up this great game. The game plays fast, considering the technology employed and would be a great soft for your library, if you know Japanese!

HEAVY UNIT Toho of Japan/Mega Drive

Based on an older arcade game, this sideview shooter duplicates the original by offering detailed, multi-layered backgrounds and fast action. Huge end of round bosses, waves upon waves of enemy fighters, lots of power-ups and weapon options, are but a few of the highlights in this well designed Mega Drive shooter. Available now but only in Japan as no U.S. company has announced its release over here.

DON'T GET FAKED OUT OF THE GYM.

You've seen the weak stuff. The two-on-two's and the bogus "full-court" games. But you're a die-hard gym rat who can play the game and expect a lot more than what they've got. Now, you're going to get it!

All-Pro Basketball gives you true all-court, five-on-five pro ball, tournament mode, 1 or 2 player control, player substitutions for tiring starters, slam dunks, blocked shots, fouls, cheerleaders, and a half time show!

Now leave that weak stuff behind, and get down to the pro game.

MIDNIGHT RESISTANCE

Deco of Japan/Mega Drive

One of the best arcade shooters is coming out on the both the Mega Drive and Genesis! Data East is doing the soft here in the

states. Spectacular graphics, huge enemy bosses and intense game play will make this a hit!

QIX

Taito of Japan/Mega Drive

The old arcade classic is being renovated, upgraded and converted to the Mega Drive. While the game-play remains the same as the arcade game, it's the challenge of outmaneuvering the spark and filling the board that is exciting.

New background graphics update this classic!

TWIN COBRA

Treco of Japan/Mega Drive

Treco of Japan is converting this great overhead view, vertical scrolling shooter to the Mega Drive. Features great graphics and lots of nonstop action which puts it light years ahead of the version done for the NES. Coming out in Japan next month.

The great vertical scroller is now being converted to the Mega Drive.

WONDER BOY

Sega of Japan/Game Gear

Sega is working feverishly to bring out software to support it's new Game Gear. To build up a quick library many of the old 8 bit titles are being shrunk down to GG size. Look for this to be called the Revenge of Drancon when it hits the U.S.

Wonder Boy in Japan, Revenge of Drancon In the U.S.

DRAGON CRYSTAL

Sega of Japan/Game Gear

The quest/RPG genre isn't being ignored for the GG. Similar in concept to a Legend of Zelda quest type game, rather than a true RPG, Dragon Crystal should attract a large following and help sell the GG. It's a 3/4 overhead view with some dialogue and plenty of enemy to kill off to gain experience points and increased status. This game is scheduled to come to the U.S. under the same name.

To help launch the GG, Sega is bringing out a quest game!

PILOTWINGS

Nintendo of Japan

4 megabit

January 1991

While not the most exciting or challenging game to come along, Pilotwings seems to have been made for only one reason - to show to everybody exactly what the Super Famicom can do with regards to scaling and rotation of objects. It is a game which everybody should look at, if for no other reason than to see what the Super Famicom can do.

FIVE GAMES IN ONE!

SPECTACULAR SCREEN SCALING!

The scaling of objects on the Super Fami is done quite well as the above photos will show. The scaling simulates real skydiving and if you twist yourself you get both scaling and rotation!

REVOLUTIONARY ROTATION!

If you choose the jetpack you can take a more leisurely cruise around the screen - watching how the machine scales and rotates the stationary land data. Again, the Super Fami does everything with ease, and this is a good indication as to it's true potential.

BEHIND THE SCREENS

AT JALECO USA

"THE MAKING OF METAL MECH"

Where do video games come from?

With all of the action and adventure found in your average cart, one might think that dozens of people are involved with the production of each game. Many softs roll a long list of credits at the conclusion of play that can list up to 50 participants contributing to a single game title. Who are these people and what do they do?

To find the answer to this important question, we visited our friends at Jaleco USA, the producers of arcade blockbusters like Cisco Heat and NES paks such as Bases Loaded and Astyanax. With the help of Earl Bless, Advertising Manager, and Jeff Hill, Product Manager, EGM found the game designing blueprint that big time companies follow to make super hits!

One of the hottest new carts on the way from Jaleco is a futuristic action/adventure yarn called Metal Mech. We sat down with the staff of Jaleco, as well as Sculptured Software, the developers of the game, to find out exactly what goes into the production of a new video game from the beginning idea to the final box.

The Metal Mech story starts in Salt Lake City, Utah, where Sculptured Software is based. Joe Hitchins, one of the conceptual people of Sculptured in charge of new game ideas, was tinkering with the idea of a giant walking robot with bristling with weapons. Similar to the Transformers and Battletech robots, Joe also added a human element to his machine of mass destruction by casting the player as a futuristic warrior that resided within the machine who could leave to explore on foot.

Some of the changes that occurred in the development of Metal Mech was a name change and a cosmetic alteration in the Mech itself!

Throughout the development of a video game, the project must work its way past "milestones", meeting specific criteria before the programming continues to the next phase. The process of development can take anywhere between six months to a year for an average game cart, with a little more or a little less time accounting for the size of the cart and the attention to detail and quality that is demanded. The following time line will give you an idea of just how complex designing, producing and packaging a video game can be.

PREPRODUCTION (Month One)

Before the first creature is drawn or the first weapons fired, the game begins with the most basic element of a video game, the idea. In some cases production teams will assemble in exotic places to brainstorm the exciting titles of tomorrow, while other companies rely on their marketing departments to identify game themes that have yet to be explored or capitalized upon within their own organization. "Give us a football game," would not be an out-of-the-ordinary beginning of a game. Often a strange char-acter is conceived and a game idea slowly forms around it.

DEFINING THE IDEA (Month One)

After the general idea or theme is isolated, a project team is assembled, including programmers, artists, sound and music support as well as a producer to oversee everything. These people get together to explore additional play concepts and get a better understanding of how the game action should flow.

By themselves, the staff of Sculptured began working more on the project and assigned Ned Martin, an expert PC programmer, to begin plotting out the elaborate backdrops and bizarre enemies that the mechanized robots would fight.

"It was during this phase in production that the game began to come together," explained Hal Rushton, Project Manager of Metal Mech, "Ned got some of the backgrounds in place and worked out the mechanics of how the characters would react."

Before the game would be finished on the PC, however, Howie Rubin, President of Jaleco USA, and other members of the Jaleco team were exposed to the unfinished PC product. Realizing the great potential that this type of game would have on the Nintendo format, Jaleco quickly snapped up the rights to the game and logically assigned Sculptured to begin work on the NES conversion.

"We adapted much of the game play directly from the PC version," Rushton continued. "The game was looking good on the computer so we all said 'Why not on the NES' and went ahead."

The first steps in bringing Metal Mech to life were to work on the backgrounds and other artwork that would comprise the futuristic world of the robot warriors. Each round was attacked by artist Heinee Hinrichsen separately, laid out on the

WRITING THE SPEC (Month One - Two)

Once the idea and theme have been refined to the point where a workable game concept can be mapped out, a writer is brought in to complete the specifications for the game. The specs let those involved with the project know what is happening in the game and to the player at any time during play. Once the spec is finished, the artist and programmers will review the document to make sure the game can be done with the memory resources allowed.

ARTWORK BEGINS (Month Two - Six)

The game begins to take its first steps at forming a real shape under the hand of the artist responsible for crafting the look of the game and its participants. The majority of the initial art concentrates on the background images as well as the more complex scenes. The artist also creates the border that surrounds the playfields at this stage. Separate artist may be assigned for complex work such as intermissions at this time as well.

PROGRAMMING BEGINS (Month Two - Nine)

Using the basics of the rough initial art and the spec as a script, the programmer can now set about to create a game out of the words. The first work concentrates on basic movements of the main character, writing the routines that will power the main play actions (such as scrolling playfields, fades and other important moments of the game to be). Game logic is also addressed at this point of the project. This is where the programmer creates the laws of the universe which will be expanded upon later.

Amiga and begin specifically with the different backgrounds for each level. After the levels are created, the opponents are drawn and the programmer sets about to meld the different aspects of play, including the graphics and sounds, into one cohesive form.

During the process of development, a give and take approach usually will occur where the programmer and producer try to get as much of the original game idea into the memory configuration that's allowed. This is important because, as you may have guessed from the retail prices, the more exotic the chips and the more memory that is placed in the game, the more expensive it becomes. To insure the proper level of profits, companies will usually limit the size of a game and rely on the programming team to make the most out of what they have to use. Metal Mech was no exception.

"The original script called for eight levels, but we had to settle on six," said Producer Rushton, "but we were able to give the last level a look and feel all its own to make up for this." Earl Bless adds "We also had to alter the main walker slightly by giving it a third leg because Lucasfilm thought it was too similar to the Imperial Walkers from Empire

Strikes Back. Even the name of the game," he continues, "had to be changed because of a copyright that existed on Mechanoids. After a couple of days of brainstorming, we went with Metal Mech as the best alternative." As far as changes in game play, the only thing missing was a flying mech that just didn't fit into the rest of the game.

The hardest problem to overcome in the development of Metal Mech was gaining approval from Nintendo of America. Completed games are submitted to Nintendo for final testing before being sent to manufacturing. Several minor changes needed to be made to meet Nintendo standards, but with the game in the box and soon to be on store shelves, we'll all be able to appreciate the time and effort spent by the gaming experts of Sculptured Software and Jaleco to create an exciting world of action unlike any other.

Metal Mech combines the graphics quality of side-scrolling classics like Contra, with an original twist in the game play!

MORE INTERACTION
(Month Three-Five)

During these months more art is completed and interfaced into the game play. The programmer makes use of this additional material by adding more animation to the main character, adding some additional levels and throwing in the first enemy characters. Interaction between these characters is still limited, however.

FINAL ART
(Month Six)

The finishing touches are done to the larger game characters such as Bosses and the rest of the opponents are drawn and animated. Input from the artist will continue through the end of development as title screens, text and transition screens are put in.

LOGIC IMPROVED
(Month Five-Seven)

With the completed artwork in place, the programmer can now insert the opponents in their designated locations as specified in the game script. The enemy characters are also given their own personalities and abilities as well as the intelligence to go after your on-screen hero. Collision detection is also added to the game begins

FINE-TUNING
(Month Eight-Nine)

With all the game elements intact, the program is tested for "bugs" or flaws which disrupt play. Sounds are added and the box and manual are designed. The finished game goes into production and hits store shelves several months later.

THIS TINY GAME HAS 1,253 ENEMY SOLDIERS, 392 TIME DELAY BOMBS, 140 LASER CANNONS, 28 SINKHOLES, AND ONE KICKBUTT ATTITUDE.

BUT IT STILL HAS ROOM FOR YOU.

Give or take a few enemies, time delay bombs, loser cannons, and sinkholes, but who's counting. Because you'll need all your skills, good judgement, and quick reflexes to crock this game.

In Crock Down, you must accept a top-secret mission to re-take control of a heavily guarded facility where artificial life systems are created. The only problem is that their evil leader wants to use them to take over the world. And they don't appreciate well-armed, visitors, spoiling their plans.

Once inside, you'll have a limited amount of time to set off time delay bombs at key locations inside the compound and get past the patrolling guards.

If you need help, use the two-player split-screen mode. This special option allows you and a friend to blast away with your weapons as two separate teams within the facility.

So if you want a game that has an attitude, make a reservation to play Crock Down. We have just enough room to fit you in.

A STORM IS BREWING...

Fresh from the masterminds behind R-Type, Metal Storm adds a brand new approach to scrolling shooters. In this game, you command the M-308 Gunner, a nine-foot, 2100 pound suit of armor! Of course, the concept of armored warriors isn't uncommon, but this technological masterpiece has the ability to reverse gravity!

At first, walking on the ceiling seems awkward, but after a little practice, many gamers will prefer the ceiling instead of the dangers on the floor. Actually, in some levels, the Gravity Flip is a necessity rather than an option. Level Two features an intricate maze of one-way platforms and trap doors which operate according to the flow of gravity. Careful, though! One touch from any enemy, door, spike, or laser bolt will send the M-308 careening into oblivion!

At first glance, this shooter appears only average, but the techniques are new and exciting, opening the doors for a new generation of side scrollers.

METAL STORM

FIVE TOUGH LEVELS!

It'll take all your skill and cunning to master these incredibly grueling areas!

LASERS!

These laser beams go on and off every couple of seconds, so move fast. Shield Force works here!

TRAPS!

The trap doors open and shut, depending on the flow of gravity. Be patient and study their movements!

FIVE ROUGH BOSSES!

Defeating these end bosses requires lots of technique and patience.

TRY THESE DIFFERENT ATTACK METHODS!

This Power Beam is wider and more powerful than normal shots. It is especially effective on the round bosses.

The ability to reverse the gravity fields is essential in most areas, but be sure not to spring any traps!

POWER UP!

-  Bonus Points
-  Power Beam
-  Gravity Fireball
-  Armor Up
-  Shield Force
-  Extra Life
-  Crusher Bomb

Plow into the enemies with the near-invincible Gravity Fireball attack. Be careful not to hit big enemies with this!

The Shield Force is very powerful against smaller enemies. Only large enemies can withstand it.

WHICH WAY IS UP??

Ever since the intense anti-gravity scene in Strider, there has never been a game that utilized the feature so completely and realistically! The feel of "falling" to the ceiling is excellent. This special feature adds a dramatic new weapon to an already impressive arsenal!

TWO WAY

Certain platforms can be passed through either way.

DOWN ONLY

Some platforms are only one-directional.

UP ONLY

TECHNIQUES AND MORE!

Two special techniques in this game are the "jump-and-flip" and the "distance flip." The jump-and-flip requires the M-308 to jump off a platform and land on the reverse side. The distance flip requires a player to jump and flip gravity at the last moment. Get special items this way.

EARTH'S ONLY HOPE!

Once, long ago, ancient Earth faced the dreadful Great Beasts. These monsters nearly destroyed all civilization. In desperation, the people called upon a small witch of enormous power to stop the creatures. When the witch succeeded, peace reigned on Earth once again.

Now, a new evil menace threatens Earth and its people. The deadly Krions have attacked, and Earth is defenseless against their power! Mankind has refused to bow down to the Krions, but time is running out. Each night, killer robots, searching for prey, roam the streets. Nobody is safe after dark!

One such night, a small boy being chased by robots found a strange wand in a dead end. Raising the wand for protection, the child closed his eyes. In a blinding flash, the robots erupted into balls of flame! The wand flew out of the child's hand and magically transformed into the

MEGA WITCH!

In this MegaMan clone from Vic Tokai, the Krion Empire has attacked Earth. Only the right combination of speed, cunning, and power can stop the numerous Krion armies! Krion Conquest adds a couple of new twists to an old theme.

USE THE WEAPONS!

From the very start, Francesca has a huge arsenal of weapon to choose from: Normal shots, Ball shots, Freeze balls, a Shield, a Broom, and the Firebird. Each will be used constantly throughout the game. The most useful weapons are ball shots and the broom. The ball shots bounce around and hit elusive enemies while the broom allows you to fly over or around dangerous obstacles! Also, the Firebird is powerful, but since it uses valuable energy, release it only in an emergency! A wise gamer will win.

LEVEL 2-1

The large life icon replaces four life bars and appears when you destroy robots.

Enemy fire cannot penetrate the Shield! Use it wisely, and no harm will befall you.

Use the Broom to get to high places! The Broom is great for quick escapes!

Hold the button and release a powerball!

Freeze magic can only stop certain enemies for about two seconds.

Ball shots ricochet off the walls. Use it especially for hard to reach enemies.

The small life icon will only replenish two health bars, so grab them you can while you can!

JAPAN 1561

Journey back in time to a land of beauty and savagery, a land of wealth and poverty, a land of power and greed. Your mission is to unite the feudal lords of ancient Japan into one nation with one ruler-YOU.

To accomplish this, you start by building up your fiefdom. The building process starts by clearing land for farmers to work and merchants to build on. Expand the town boundaries on the newly cleared land, this keeps the town folk and the merchants happy. This also allows you to raise taxes, providing you with much needed revenue to help recruit new soldiers and samurai warriors. You will also want to fortify your castle to protect you from outside attacks. One important note is to maintain a high level of flood control. You never know when a monsoon rain will hit.

Maintain diplomatic relations with some fiefdoms while you are attacking others. This will allow you to take control of some land while protecting you from attack from close neighbors. GOOD LUCK!

Nobunaga's Ambition[®] II

Check with your advisors frequently, they will give good advice. Wise rulers will listen to their words.

Battle scenes are laid out so that you can match your armies to his. These are your samurai, they will do all that you ask of them.

ARCH RIVALS, IT'S A REAL BASKET BRAWL!

THE ARCADE
SMASH FOR
YOUR NES®

Get ready for an outrageous basketbrawl. It's slam dunkin' full court action with a twist. If you can't block your opponent's shot — knock his block off. But with Arch Rivals you still need real B-ball skills to win — like passing, shooting and sinking those 3-point shots.

So if you're ready for some "in your face" head-to-head arcade action, get Arch Rivals... where breaking the rules is the rule!

TWIN PLAYER ACTION!

Based on an arcade coin-op with the same name, Air Buster is the new addition to the shooter genre. The game's manufacturer, Kaneko, is presently converting the coin-op for both the Genesis and Turbo Grafx machines (Aeroblasters for Turbo). Nonetheless, this version for the Genesis is markedly better than the Turbo version. Air Buster has independently scrolling backgrounds and humongous middle and end bosses. The animations are marvelously smooth and clear, deserving a second look from any serious gamer.

Then again, what is a shooter without awesome powerups, intricate levels, and cool end bosses? Certainly not Air Buster! Not too many games allow players to power up their main gun ten times AND utilize another special weapon as well. With a fully powered gun, players can completely destroy most enemies before they enter the screen, including the huge mid bosses. Even end bosses don't last long under that kind of fury!

To top it all off, Air Buster has the additional feature of two-player simultaneous play, similar to Life Force. The game quickly becomes extremely easy and unfortunately mundane with two players blasting the enemies unless the hardest setting is used. Still, simultaneous action doesn't get much better! The most notable (and noticeable) effect is the absence of animation slowdown during simultaneous play, a marvelous touch to this great game.

BLAST FEARLESSLY INTO 6 HUGE LEVELS!!

ENEMY BOSSES!!

These Bonus Money Icons are found on Level 2 and Level 6. Only a quick pilot will get them.

GET ICONS FROM

THE CAPSULE!

Up Icons are numerous on Level 6. Once again, only the best pilots can reach these safely.

USE THIS MASSIVE ARSENAL OF WEAPONS TO WIN!!

The P icon is the most valuable power up to get. After 10 of these, no enemy is safe!

Grab up to 10 for maximum destructive power!! Works great on level bosses.

The Side Options add needed firepower!

The Side Options are indestructible. Try ramming them into enemies!

6-Way is a weak but versatile weapon.

The Barriers will help guide the ship.

AEROBLAST!

Warm up the mighty Aeroblast, wait for plenty of onscreen enemies, and then...

Rear shots will insure survival in ambushes.

...nail them all in one incredible explosion. Watch out for random enemy shots, though!

The spinning Hyper Cannon is deadly!

The Barrier is a must in Level Two. It will pilot the ship through the narrow passages.

Homing Missiles are quick and accurate, but don't pack much of a punch.

Photon missiles are slow, but powerful.

The Hyper Cannon delivers an incredible devastating blow to all the enemies it hits.

WINTER CONSUMER ELECTRONICS SHOW

WCES - AN OVERVIEW..

The Winter Consumer Electronics Show was a mixture of good and bad news. The good news first. Nintendo was demonstrating the Super Famicom on the show floor; Sega officially unveiled their not so secret color Portable Game Gear and SNK had their Neo-Geo with a whole new batch of great software.

The bad news includes: the number of Nintendo licensees continues to rise; most of the games shown were me-too copies of existing, older overworked themes; and Sega continued to keep all of us in suspense with their not-so secret CD-ROM and TERA computer.

On the brighter side though, some of the products were truly exceptional. Sega had the best game at the CES with their Sonic the Hedgehog. Tradewest had a highly innovative Battletoads; NEC will have a winner with Bonk's Revenge; and Atari, with their new \$99 price for Lynx, is going after the \$89 black and white GameBoy.

In other news, a couple of the big Nintendo licensees went public by announcing that they will be producing both Nintendo and Sega softs. Data East will do Midnight Resistance and a couple other games for the Genesis, and Taito will come out swinging with the spectacular 8 meg Sagaia (better known as Darius 2) and two other titles. Capcom and Konami were mum about any Genesis plans. They on the other hand, would rather talk about the new Super Nintendo projects that are in the works.

As with every show, we came back with photos. Lots of pix. Over 1500 in fact! Why? Because you tell us that you want to SEE the games rather than read about them in a long boring list. So here it is, the best of the show!

STAR WARS JVC/Lucasfilm

Realistic and non-linear game play follows the movie adventure faithfully allowing playara to travel throughout the many worlds at will! Rescue Leia and Solo while experiencing 3-D overhead and sidaview perspectives.

BATTLETOADS Tradewest

The fierce fighting froggers are here. Pimple, Zitz and Rash are stronger than the acne medicine and quicker than turtle soup. These hot new characters get mad, then get even! Play through 12 dazzling rounds of fighting fun.

S.C.A.T. Natsume

The Special Cybernetic Attack Team is on the job to save the human race from extinction. One or two player simultaneous action against an alien force led by the Supreme Commander Vile Malmort. Fast and furious non-stop game play!

SUPER BOWL Tecmo

Kick off for more exciting gridiron action with the super sequel to the favorite football classic - Tecmo Bowl! Real players and real teams combine with other new refinements for hard hitting action that set new standards in NES football!

So you always wanted to work for NASA. Now here's your chance. Help get everything ready to launch the Shuttle before the countdown reached 0. Once in space it's a fantastic journey among the stars!

MAGIC DARTS Romstar

Similar to the popular coin-op Amari Darts, but with new features only a home game can offer. A unique cast of characters are available to use and each one has their own shooting technique. Many surprises but the fun is in finding them.

HUNT FOR RED OCTOBER Hi-Tech Expressions

Become Captain Ramius of Russia's ultra-secret submarine and complete a mission to defect to the U.S. With realistic action and challenging game play.

AMERICAN GLADIATORS Gametek

We've seen them on TV and they're all here in their very own NES game. Blaze, Nitro, Lace and the whole crew are waiting to take you on in the joust, wall climb, powerball and assault events.

THE ROCKETEER Bandai

From the soon to be released Disney motion picture, you can play the part of Cliff Second air racer and stunt pilot. His girl has been kidnapped, he's being chased by thugs, the FBI, and the Army! All are after the apical rockstapack hidden in his airplane.

POWERBALL™

SMASH INTO THE FUTURE

In a futuristic sports arena, you're running upfield, free and clear, when **WHAM!** your opponent slams into you with a bone-jarring tackle knocking the ball loose. On defense, switch control to your nearest player, then devastate the ball handler with a lightning spin kick, forcing another fumble. Now pick it up and sprint upfield. Then cut back to evade tacklers, fake the goalie, and bust through for a touchdown!

This is Powerball™, the sports game where teams of armored athletes hammer each other in a furious slugfest. Powerball combines skills from martial arts, football, and rugby. Each of the twelve teams boasts a unique level of skills. Whether you compete against the computer or a friend, you'll thrill to the action of Powerball, the smash sport of the future.

SMASH TV Acclaim

Based on the Williams coin-op, this smashing, futuristic game will be one hot property. The action gets so intense that you will have to use two controllers to maneuver and shoot. With the 4 Score two can play simultaneously!

F-15 STRIKE EAGLE Microprose

A Nintendo version of the amazing coin-op flight simulator which suffers little from the conversion. All the complexity of the play mechanics are there as are the detailed graphics. Could be hot!

ROBOCOP 2 Data East

This sequel to the original Robocop game packs much more action than the first. Our heavy metal hero is alone on the streets in search of drug lords and Nuke. With the firepower of a battalion, old Detroit rocks!

IKARI 3 SNK

The Ikari Warriors are back in their best adventure yet! This time they must rescue Elise, the president's daughter from 'Crime Ghost', a secret organization determined to cause all kinds of havoc. A solid action game!

EARTH BOUND Nintendo

Shown in an early prototype form, Earthbound is a quest/adventure game designed for the very young. Featuring tiny tots out on an adventure throughout their house and surroundings. With pull-down menus for commands.

POOL OF RADIANCE FCI

FCI, best known for their superior RPG's, keeps the trend going with a Nintendo conversion of the popular SSI Advanced Dungeons and Dragons computer game. Long, first person perspective mazes with hundreds of deadly monsters, make up but a part of this challenging complex RPG.

CONAN Mindscape

He's a real barbarian! With his long sword and brute strength for protection, you must maneuver him safely through multi-screen mazes of underground caverns taking on scores of prehistoric beasts who are out looking for an easy meal.

GENESIS™ DO

THE FIRST AND ONLY

1. Hang gliding deep into enemy territory is just the start. Past these gleaming minarets lie frozen wastes, mechanical jungles and gigantic battleships.

2. Beware of the burly machine gunners. Unleash your laser sword. Watch for the special room to get a super sword.

3. Use your grappling hook to clamber up vertical walls, while fierce guards attack without mercy.

4. On the top of a building, climb rickety scaffolding to build your scamina. Also collect a mechanical attack bird here.

5. Collect two drones and then you get the white mechanical parrot to help in your assault, as he leaps at the moon.

ES STRIDER. Y 8-MEG GAME EVER.

6. Mad wolves lunge at you from deep in the arctic wastes. Here you can get a friendly droid to help you battle the enemy.

7. In the midst of angled scaffolding, mischanced defenders rock on ball bearings as they try to blast you into atoms.

8. Within the forest you fling yourself onto swinging vines and meet Amazon women. Don't fall—deadly piranha fish infest the waters below.

9. Automatic cannon fire assaults you aboard the fleet cruiser of the evil empire. Soon you'll face its largest cannon—it's awesome.

10. You must face and defeat such mechanical mirrors of death, before you reach the inner sanctum of Number One.

It's here. Strider—the most powerful home video game ever. The ultimate arcade hit. From hard hitting non-stop action to the awesome graphics and radical gameplay. Strider is definitely here!

An evil Syndicate has violently overthrown Russia and is using their scientific and military might to take control of the world. You land your hang glider in an industrial town and begin your quest to defeat the evil mastermind. You use your incredible acrobatic skills as you leap onto moving platforms, climb to the top of I-beams with your grappling hook and slide with heels dug in down steep slopes while you evade razor sharp spokes.

With your only weapons, a trusty laser sword and swift hover craft, you take on mutant centipedes, ancient dinosaurs, pirates, mad dogs, monkey-like mechanical robots and finally the evil mastermind in his mechano-skeletal headquarters.

It's what happens when 8-meg power combines with the only true 16-bit system. Only on Genesis by Sega.™

BILL AND TED'S EXCELLENT ADVENTURE LJN

This dynamic duo needs no introduction. LJN has cast this twosome in a new adventure game which send them back in time. Lots of dialogue screens and digitized pictures.

GODZILLA 2 Toho

Our heroic dinosaur is coming back in a bigger and bolder adventure. Some of the other famous monsters like Ghidra Baragon and Radon are here too as it's one big monster bash!

ROCKIN' KATS Asuka

Willy the Rockin' Kat is the funkiest, funniest and coolest character to come to the NES in a long time. A fresh game concept where the player chooses his favorite channel of game play and then cruises from N.Y. to the wild west.

TOUCHDOWN FEVER SNK

Your hands are sweating, the crowd is roaring and the clock is ticking! Snap the ball, roll out, find a receiver and deliver the goods! Vertical scrolling perspective and very fast action.

KLASH BALL Sofel

Futuristic sports games are popular now with this one coming to you from the 23rd century. Two 5 men teams clash it out trying to deliver a 5 kilo metallic energy sphere into the opponents goal zone.

MONOPOLY Parker Brothers

Finally the greatest board game of all time comes to Nintendo. Think of it, no more lost or worn out parts! Or cheating! The program keeps track of everything and the screen zooms in to cover the animated moves of your piece. Play with friends or against the NES.

MIMI PUTT JVC/Lucasfilm

An interesting 4 player miniature golf game with loads of obstacles and tons of fun. Move the cursor around to survey the layout of the hole, gauge the power needed, and let 'er rip! Castles, windmills, water hazards, bridges and more.

UNINVITED Kemco-Seika

Search for your sister in the mansion of the unmentionables. Similar play to the extremely popular Shadowgate, this one has you confronting the ghoul dudes of the house next door! Outwit zombies, ghosts and demons.

RAINBOW ISLAND Taito

Discover adventure and magic in the enchanted kingdom in the clouds. Climb through 8 worlds, score points for finding magical objects and brilliant diamonds as you search for your pal Bobby.

FUN HOUSE Hi-Tech Expressions

The wild and wacky TV game show is now a video game. Skate your way through 80 zany mazes toasting tomatoes at targets in the most outrageous Fun House ever built.

LASER INVASION Ultra

This is the first of many games to be designed for their new Laser Scope peripheral. It's up into the skies looking for a good dogfight! It's a lot more fun than just using the old Zapper.

FARIA Nexoft

Faria is Nexoft's quest adventure game somewhat on the lines of a Zelda. Explore the multi-screen countryside as you venture farther into your quest. Obtain information and supplies in the various shops while in the towns.

GREG NORMAN'S GOLF POWER Arcadia

Grab your clubs and set out on a new NES golf simulation. Featuring very detailed, realistic graphics in a course that's loaded with plenty of the ball-eating hazards like sandtraps, woods and creeks. It's not a course that you'll be shooting under par for quite some time!

WHOMP 'EM Jaleco

You're Soaring Eagle in search of totems for your magical pouch. Travel through 8 worlds ranging from the Sacred Woods to the Secret Cliff. Gather deerskin jackets, buffalo headresses gourds and magic potions as you progress farther into your adventure.

The Future of Video Game Information is Here

Verdict TeleReviews™

Just what is VTR?

VTR is a caller-driven info line, where users can access a mind boggling array of vital video game features.

It takes a lot to hoggle my mind. How can VTR do it?

Just listen to this: With one call, you can get well over a hundred (more added weekly) critical, objective, and entertaining game reviews. Second, you can access our recommended game lists, which identify top titles by system and age group. Third, you can access up-to-the-minute news and information. Finally, you can use the "Sound Off" to get your views heard by the industry "big boys" (and girls!) quickly and efficiently.

Who should use VTR?

People who are looking for an alternative video gaming source use VTR. VTR is for those who want their info now, be it hard-hitting reviews of the newest games, a list of the best available titles for their machine, or late-breaking industry news.

What makes VTR reviews special?

First, VTR covers almost every new game that comes out for all of the major systems. Second, our service is available to you any

time, day or night, and from any touch tone phone. Plus, you can choose either a short (1 minute) or long (3 minute) review, so you get exactly the amount of detail you want. Finally, our opinions are those of real life players; not insiders or professionals, but people just like you!

What are recommended game lists?

These are "top ten" lists expressly designed for those who are interested only in the best games for their systems. These lists are updated bi-weekly, so you'll know that our list includes all the latest and greatest games for your system and age group.

And the news?

VTR covers all aspects of the video gaming world, with bi-weekly updates of new product announcements, manufacturer promotions, gossip, debates and much more. If you can't wait to hear what the video game future will hold, you need VTR news.

Ok. What about Sound Off?

Sound Off makes it easy to get your opinions to anyone in the video gaming industry. Do you have a game related comment, complaint or suggestion? VTR can get it to the right person. Forget looking up numbers, addresses

and company titles. Just call us up, leave your message, and we'll take care of the rest.

Is the system hard to use?

No. All the information is accessed using a very simple and efficient menu system. We get you to the info you want with the greatest of ease.

What are the codes listed below for?

These allow you to get directly to the reviews you want. When asked, just enter the code and *voila!*, the review begins.

VTR sounds great! Who are you guys anyway?

Basically, we're just a group of young gamers who got sick and tired of buying sorry, overpriced, piece of junk games. We designed VTR to serve as a new source of information that could help confused consumers (like us!) make educated choices when purchasing games. VTR can really help you get the most for your video gaming dollar. But there's no need to thank us, just call!

What is VTR's number?

Funny you should ask! It's right down here...

Get set for the most spectacular video game contest ever! EGM is giving away more than \$10,000 worth of video games and equipment throughout 1991! We're giving away a slew of hard-hitting hardware and game softs to FIVE lucky readers in not one, not two, but THREE special drawings! Great prizes like a Sega Genesis System, a NEC TurboGrafx-16, an Atari Lynx and special sets of 10 hot titles for the Nintendo Entertainment System!

And the excitement doesn't stop there! EGM is giving away a super GRAND PRIZE, a full-sized arcade game, to one of these 15 champions!

Entering the EGM \$10,000 Great Game Give-Away is the easiest part of all! Simply detach the Reader Service Card from this issue, circling the appropriate reader service number for FREE GAME INFORMATION, and send it in for automatic contest entry!

Rules: All entries must be postmarked by March 31, 1991 to be eligible for the first drawing. All entries received after March 31, 1991 will automatically be registered for the second drawing. All previously accepted entries are eliminated after each drawing is completed. The decision of the judges in the selection of the winners is final. Neither EGM nor the judges will be liable for lost or misdirected mail. No purchase is necessary to enter. Multiple entries are allowed, but only if sent under separate postage to: EGM Great Game Give-Away, 1620 Highland Avenue, Suite 300, Lombard, IL 60148. The specific titles of the Nintendo game packs contained in the Nintendo game packages is up to the judges. Employees and families of Sendai Publications, Inc. are not eligible to enter. Deadline for second drawing is June 31, 1991. Deadline for third drawing is September 31, 1991. Grand Prize Winner is selected at random from the previous 15 winners on October 15, 1991. The title of the arcade game awarded is up to the judges. Void where prohibited. * \$10,000 value based on MSRP of all products awarded.

HATRIS Bullet Proof

This is another of the fascinating puzzle-mind bending games from the designer of Tetris.

This time you take pairs of hats that drop off an assembly line, arrange them and stack them to score points. Easy to learn, difficult to master.

BLAZE BUSTER THQ

Do you smell smoke? Where there's smoke ... there's fire!! Billy Bob and his bunch of blazebusters will save lives by sailing through the air and rescuing people falling from burning buildings. 30 different scenarios in this scorching.

COWBOY KID Romstar

You are the cool little hondre that's out to tame the old west in this colorful and comical combination of light hearted role-playing situations and slapstick action. Western theme video games are always popular with players everywhere.

SWORD MASTER Activision

This exciting, sword swinging, action game is sure to please. Similar to last year's "Castle of Dragon" by Sega, this game has a colorful look and feel that will transform players to an era of conquest and courage.

MIGHT AND MAGIC American Sammy

This NES version of the popular RPG game has the classic good vs evil storyline. There is territory to learn, spells to master, and skills to learn in order to achieve one's will.

MIKE TYSON'S INTERGALACTIC POWER PUNCH American Softworks

This boxing is out of this world. Mike Tyson must duke it out with the strongest cast of creatures this side of Manila. Similar to Punch Out and equally entertaining. Punch, stab, dip and dive, but always come out fighting.

VICE American Sammy

As officer Quinn Hart, you are on an assignment unlike any other you have seen before. Weird bodies are turning up dead, top secret weaponry is missing and organized crime is at an all time high.

RAIDEN TRAD Bignet

One of 1990's most successful shooting epics in the world of arcade games is captured in all its glory for the Genesis. As enemy planes, tanks, helicopters and giant bosses appear, you and your jet squadron will have to deal them a death blow.

ALIEN STORM Sega

This multi-player arcade action classic is now playing on Genesis. The intense graphics and super fast action keep things hot as an alien onslaught tries to overrun your heavily armed commandos. Too hot to handle alone!

688 ATTACK SUB Sega

Up periscope! You are the brilliant commander of a heavily armed, nuclear submarine. Highly detailed subeene monitor speed, depth, bearing, course and X-Y coordinates. A very real combat simulation for would-be captains.

SPIDERMAN Sega

Marvel comic's most endearing super hero comes life in vivid animation and spectacular graphics. Spidey climbs walls, shoots webs and generally makes life miserable for Electro while on an all out web war to stop Venom.

SONIC THE HEDGEHOG Sega

An exiting new character that is destined to capture the hearts of players everywhere. This speedy little rascal is just too cool for words. Faster than a flash, he collects rings as he runs along, but watch out for pointy spikes.

ABRAHAM'S TANK BATTLE Sega

Man the controls and prepare to aek out the enemy. All the information you need is right at your disposal. Use your sense of danger and strategy to develop the killer instinct.

VALIS 3 Renovation

This is a fantasy action game with 3 main characters, each with own personality and weaponry. The player is able to execute attacks, spells, jumps and sliding kicks. There is a different result for each action you do.

**JESSE 'THE BODY'
VENTURA**
Dreamworks

What's larger than Hulk and just as ugly? Would you want to get into the ring with this guy? No holds barrad auperatar wrestling with head crushin' action! Play solo or with a friend.

NOTE: PRELIMINARY SCREEN SHOTS ARE SUBJECT TO CHANGE

THE BERLIN WALL
Kaneko

One or two player action maze game. Lots of peaky critters to avoid or eliminate. Make the blocks disappear and watch the enemy topple down a level. A great game for the younger players!

WINGS OF WOR
Dreamworks

A new and vary graphic shooter. Large, extremely detailed mutant beings attack you from all directions. Hurl magical energy bolts as you travel through the sky, under the water and through deep caverns.

GAIN GROUND
Renovation

In each fixed screen round of play, learn to maneuver the man to the different characters you want to free and then take off! Vaguely similar to Gauntlet but much more fun to play.

DINO LAND
Renovation

All pinball games are the same? Wrong! This one is three dimensional as you can propel your ball upward to get to higher point value playfields and more challenging game play.

JUNCTION
Bignet

One of the old standards in puzzle games updated with 3-D slanted playfields. Solve each round and a progression of colorful background screens appear at the end of the rounds. It's a race against time but all ages can play it!

**WARRIOR OF
ROME**
Bignet

Here it comes - the ultimate in war simulations! It's 8 mag of power and the battle strategies used against you are among the most complex ever devised in a home game. Just what the military combat players have been waiting for.

SWAMP THING Nuvision

Battle your way to the evil Dr. Arcane's secret mansion lab to get the much needed bio-restorative formula. You don't want to stay ugly, scaly and green forever! Take on the mutant gang of Un-Men who have orders to stop you at all cost. Transform yourself into other shapes to get through the swamp!

MS. PAC-MAN Tengen

The queen of the dot gobblers is coming to the Genesis later this year. This being the 'liberated' version of the original Pac-Man it has been improved with larger mazes, a speed-up button for an extra burst of speed, and over 100 different screens to get through.

R.B.I. 3 Tengen

Third in the progression of baseball games that began with the original R.B.I. coin-op game for the VS System. More players, more stats, more options allow for more great baseball action.

PIT FIGHTER Tengen

Shown in early prototype form, this is destined to be one hot classic fighting game if it lives up to its pedigree. Digitized characters in state-of-the-art fighting scenes!

HARDBALL Accolade

The best selling computer baseball game of all time is now a Genesis cartridge. Authentic graphics, effortless game play, and digitized sounds combine with high scores and plenty of atats. So realistic, you can almost smell the grass.

STAR CONTROL Accolade

Superb spaceship graphics and realistic sounds make this 1 or 2 player soft one of the most challenging space combat games. Awesome arcade action and long term strategy are required.

ONSLAUGHT Accolade

In a beautifully detailed medieval action game, you literally face an onslaught of enemies. As the central hero, you must use your bravery and sword skills in this action filled, exploration game.

DANDO Treco

You are a young knight, determined to conquer the evil forces that have a stranglehold on the kingdom. Beautiful graphics and sound effects enhance this interesting action/role playing game.

TASK FORCE HARRIER EX Treco

This arcade recruit is a favorite vertical shooter. Your mission is to fly deep into enemy strongholds and destroy the command force. Along the way, arm yourself with a constant supply of power ups.

WARDNER Mentrix

Journey to the strange and eerie forests of Wardner, where all creatures are suspended in unusual animation. Originally a popular arcade game called Pyros, this action adventure game is an exact duplicate.

ELEMENTAL MASTER Technosoft

A powerful young prince has the ability to wield destruction forward or backward in this vertical action game. Fantastic animation and detailed characters are featured throughout.

DEATH DUEL Razorsoft

It's a new, spectacular first person perspective shooter where huge hideous enemy are waiting for you to make a wrong move. Shoot them before they can get you.

NOTE: The screen shows an very preliminary and are subject to change.

STORMLORD Razorsoft

This highly detailed action adventure game, said to be like Ghouls & Ghosts, should quickly become popular. Throwing axes, climbing and traveling throughout a strange, unfriendly world is this game's allure.

SAGAIA Taito

Live an intergalactic adventure with this amazing space sequel to Darius. Proco and Tiat must launch an offensive against the invading Belser and his mysterious space aliens.

SPACE INVADERS Taito

And you thought Earth was finally safe. Thirteen years later, the invasion is back. Countless levels of escalating intensity as wave after wave of aliens march to Earth's crust. New weapons and more mysterious UFO bonuses.

DARK CASTLE

Electronic Arts

A zany action adventure game that pits you against the Black Knight, his haunted castle and a variety of crazy minions. Choose your path and then climb, jump and swing your way through 14 levels.

MIGHT AND MAGIC 2

Electronic Arts

Over 100 different adventures await you in this vast role playing quest in the land of Cron. Explore over 50 sprawling and colorful mazes of towns, caverns and dungeons. Create your own characters and achieve higher levels.

ROAD RASH

Electronic Arts

Strap on your helmet, kick start your bike and get ready to shove your opponents into oncoming traffic. This game combines the thrill of racing and street fighting. The races are unannounced, unofficial, unnerving and unlawful.

KING'S BOUNTY

Electronic Arts

Howl into battle with an army of knights, trolls and mages. Take them on a march across 4 continents in a mind boggling game of strategy and conquest. Choose one of 4 leaders to command and then return the scepter of order in time.

GOLDEN AXE WARRIOR

Sega

Besides the other SMS games we have already reviewed in these pages, the only new 8 bitter at CES was this Zelda clone. It is a new quest adventure that, while not an RPG which is sorely needed, will never-the-less provide good entertainment.

JAMES POND

Electronic Arts

The name is Pond...James Pond! The only fish with guts to stop Dr. Maybe from polluting the world's oceans. Pond is ozone friendly, hooked on action and the only underwater agent with license to bubble.

PGA TOUR GOLF

Electronic Arts

Real players, real courses and real pressure. Compete against 60 PGA tour pros as 3-D graphics and animation bring to life over 15,000 yards of the greatest PGA courses.

PHANTASY STAR II

BATTLE YOUR WAY TO THIS GREAT CLIFFHANGER ENDING!

It's been a long and difficult journey, you've lost your beloved comrade Nel, and now you've finally arrived at the entrance of the dungeon Noah. You and your party of brave adventurers must find your way through a maze filled with extremely powerful enemies before reaching Pandora's box. Open it and you'll face and defeat two of the most hideous creatures in the Algo system, Dark Force and the fearsome Mother Brain. The Mother Brain is destroyed and your party has sustained severe injuries, but just as you lower your sword in a sigh of victory...

ROLF

Get through the dungeon to find Pandora's box and you're in for a nasty surprise!

After defeating the evil Dark Force you'll encounter Mother Brain in the hall.

HUGH

KAIN

SHIR

During your confrontation with Dark Force and Mother Brain, be sure that all of your characters have plenty of Star Mist. Find out what happens after learning the secret of Mother Brain!!

PAC-MAN'S BACK AND GAME BOY'S GOT HIM!

PAC-MAN © 1980, 1990 Namco Ltd. All rights reserved.

The arcade classic Pac-Man makes his Game Boy™ debut in this sensational new release from Namco. Relive the adventure as you munch your way through twisting mazes filled with power pellets, bonus fruit, and those wicked ghosts! Beware of their touch- they've been known to snack on Pac's.

Hook up with a friend to double the excitement in this first 2-player Pac-Man®. Determine the challenge by choosing the number of lives you'll need to defeat your opponent. Add fuel to the rivalry by using the handicap feature which allows two players to begin in different rounds. Gulp down a ghost and shoot'em to your opponent's maze!

There's Ghosts to gobble so get Pac'n.
